## Modular Storage

The Modular Storage collection offers hinged door cabinets, available as single units and as storage walls in various heights and widths. They are composed of modules, finished with a casing that creates the look of the cabinet being one piece.

The casing (side panels, top panel and plinth) and the doors can be finished in melamine, Fenix hpl or veneer, or a combination of these.

The units have an integrated handle and can be equipped with cylinder locks.

The interior, the height adjustable shelves, the integrated handle and the back are always finished in either black or lily white melamine.

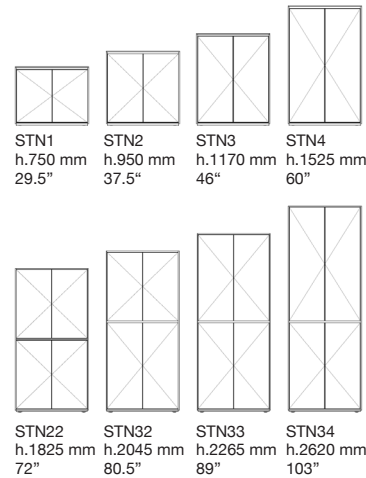

The back can also be finished in the same finish as the doors and/or the casing, which makes these cabinets perfect to use freestanding in the room or as room/workstation divider.

The cabinets are also available without doors on request.

## Dimensions

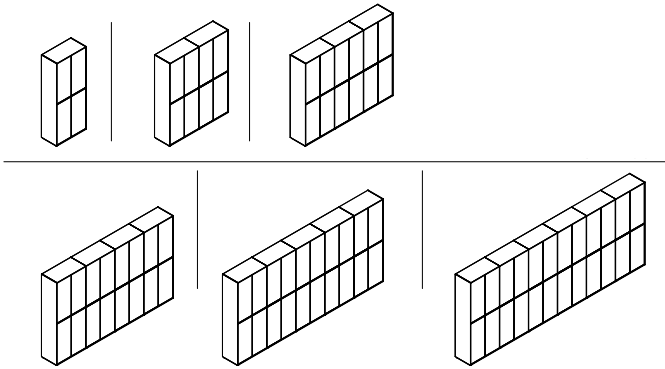

### Heights:

750 mm / 29.5" - 1 binder high  
950 mm / 37.5"- 2 binders high  
1170 mm / 46"- 3 binders high  
1525 mm / 60"- 4 binders high  
1825 mm / 72"- 4 binders high  
2045 mm / 80.5"- 5 binders high  
2265 mm / 89" - 6 binders high  
2620 mm / 103"- 7 binders high

### Widths:

single unit - 932 mm / 37"  
double unit - 1838 mm / 72"  
row of 3 units - 2745 mm / 108"  
row of 4 units - 3653 mm / 144"  
row of 5 units - 4650 mm / 183"  
row of 6 units - 5467 mm / 215"

### Depth:

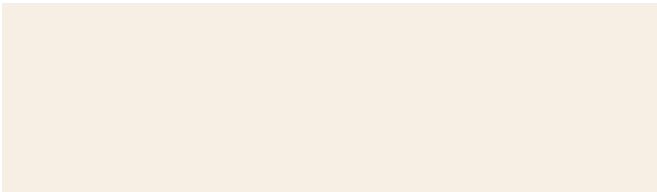

480 mm / 19"

### Casing top panels:

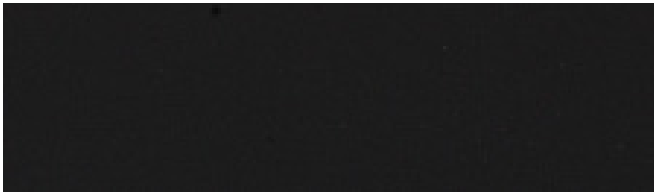

Top of single unit in one piece  
Top of double unit in one piece  
Top of row of 3 units: in 2 parts  
Top of row of 4 units: in 2 parts  
Top of row of 5 units: in 2 parts  
Top of row of 6 units: in 3 parts

FENIX NTM® is a super opaque nanotech material. It combines elegant aesthetic solutions with state-of-the-art technological performance. The external surface of FENIX NTM® involves the use of nanotechnology that allows thermal healing of superficial micro-scratches. FENIX NTM® has low light reflectivity, is anti-fingerprint and features a very pleasant soft touch. It is highly resistant to scratches, abrasion, rubbing and dry heat. It significantly reduces the bacterial load making its surface hygienic and easy to clean. It is also liquid repellent and mold-proof.
