

PUB & CLUB CLASSICS CHAIRS IN STANDARD FABRIC

Cleaning and Maintenance

Everyday care and maintenance

The fabric is best cleaned using a stiff brush or a vacuum cleaner with the appropriate attachment. You can also give the fabric a gentle rub with an almost dry shammy leather to restore the fabric's fresh look.

Stains

1. Coffee stains

- a) Detergent or shampoo for furniture upholstery fabrics
- b) White spirit
- c) A 2% borax solution, thinned in a coffee cup of hot water, to be applied with a coffee spoon and subsequently cleaned with tepid water.

2. Soft drinks

- a) Detergent or shampoo for furniture upholstery fabrics
- d) A 2% borax solution, thinned in a coffee cup of hot water, to be applied with a coffee spoon and subsequently cleaned with tepid water..

3. Ink

- a) 90° alcohol disinfectant
- b) Acetone, thinner
- c) Biological detergent in a 1% solution (a coffee spoon in a coffee cup filled with tepid water)

General Information:

1. When using a soft, solvent-free cleaning product, we recommend you first try out the product on a small part of the fabric that is not exposed to view to test the agent's colourfastness before treating the actual stain.
2. In case of severe soiling with mud or large stains we recommend calling on the services of a professional cleaning company.
