New project: Sharp Insurance Brokers

We joined forces together with DnA architecten interieurs to design the office space and interior for Sharp Insurance Brokers!

Their new office is located in a former industrial site of Saffre Frères in Oudenaarde which used to be an old textile factory. Sharp Insurance Brokers moved into the original old office building of Saffre Frères.

Today, this location is converted to a sustainable and vibrant residential area with lots of open space, energy efficient homes, inspiring offices and much more. The project is called Saffrou.
