

Bulo

THE NEW CATALOGUE IS HERE

CELEBRATING THE PAST AND EMBRACING THE PRESENT

We are thrilled to announce the release of our brand new hardcover catalog, a testament to our legacy and a glimpse into the future. As we commemorate the remarkable milestone of our 60th anniversary, we invite you to join us on a journey through the rich history of Bulo, as well as our deep-rooted commitment to innovation and design.

In addition to the fascinating historical timeline, our catalog is a visual feast for design enthusiasts. We have meticulously curated a stunning collection of photographs showcasing our diverse range of furniture products. From sleek and modern office desks to elegant lounge chairs, each piece embodies the essence of Bulo's design philosophy —uncompromising quality, timeless aesthetics, and functionality.

Moreover, our catalog highlights the contributions of renowned designers and their collections, which have played an integral role in shaping our brand. Their innovative designs have consistently pushed the boundaries of creativity and sustainability, resulting in iconic and influential pieces that have stood the test of time.

New project: Veolia Brussels

The employees of Veolia Belgium's support services, together with their new colleagues from Suez, settled into their new offices, which were renovated and redesigned in several office spaces within a building on Boulevard Poincaré in Saint-Gilles.

08.06.23 TRENDS & INNOVATION MARKET

Bulo was present at last month's Trends & Innovation market organised by The Hub in Antwerp. We got the chance to connect with lots of (interior) architects and fellow design enthusiasts who were looking for innovative materials to get inspired by and potentially use in their next projects.
